

Global Health and Safety Policy Statement

The Promethean Global Community is committed to ensuring that the health, safety, and welfare of its employees and others are not adversely affected by the undertakings of the business as far as is reasonably practicable.

We believe that an excellent company is by definition a safe company. Since we are committed to excellence, it follows that minimising risk to people, plant, and products is inseparable from all other company objectives.

In the field of Health and Safety, we seek to achieve Global best practice solutions. We do not pursue this aim simply to achieve compliance with relevant legislation, but because it is in our best interests. The effective management of Health and Safety, leading to fewer accidents involving injury and time taken off work, is an investment which helps us to achieve our goals.

Effective control of Health and Safety is achieved through co-operative effort at all levels in the organisation.

By identifying significant risks, we have set objectives to implement a program of continual improvement in the areas outlined below:

- Risk reduction
- Health and Safety training
- Safety culture
- Legislative Compliance

The Promethean Global Community shall assess the risks to Health and Safety from all business operations in a suitable and sufficient manner to ensure that identified risks are controlled so far as is reasonable practicable.

We shall provide:

- Information, training, instruction, and supervision as is identified as being necessary to ensure the Health, Safety, and Welfare of its employees and others who may be affected by the company's undertakings.
- Items of plant, equipment, machinery, systems of work, and personal protective equipment that are safe and without risks to health so far as is reasonably practicable.
- Arrangements to ensure the safe handling, storage, and transport of articles and substances that are inherently or potentially dangerous.

We will seek to cooperate with site owners and other contractors to ensure a safe workplace is provided and maintained with safe means of access and egress. We will also ensure that adequate welfare facilities exist so far as is reasonably practicable.

The Promethean Global Community shall provide adequate organisation and arrangements to ensure that the aims of this policy statement are achieved and will be periodically reviewed.

Signed:

Vin Riera
CEO
